

Laser Hair Associates offers non-invasive hair removal

Story and photos by Bob Cypher

When Chris Liscio, Kristine Santor and Lori Giachetti got fed up with their own hair removal appointments, procedures and costs, the three long-time friends decided to do something about it.

They took the initiative, researched schools and came up with the perfect solution. The trio of friends attended and graduated from the Laser Centers of Connecticut in March 2006.

As a result of their collaborative efforts, they examined the best way to market their combined talents, hopefully within the Pearl River area. As luck would have it, a space became available in July of this year and their new business has been growing ever since.

Open from 10am to 6pm Monday thru Saturday they also will do evening appointments by request.

While attending the Laser Centers of Connecticut School, they each participated in 40 hours of hands on clinical training and laser safety certification. They also had extensive instruction in anatomy and physiology of skin and hair, skin typing, laser biophysics and tissue interactions, safety and equipment, specific lasers and use in laser hair removal, and regulatory requirements.

What makes Laser Hair Associates of Rockland stand out from the many other firms in the same business?

The Pearl River firm claims to be the only exclusive laser hair removal firm in the county and this is because laser hair removal is all that they do!

The trio decided that because this was going to be the only service offered, they would invest in the best laser hair removing equipment-the GentleLASE. This is an FDA approved Alexandrite laser designed for hair removal.

It is a state-of-the-art system that is fast, relatively painless and most efficient. The

priorities set up by Kris, Chris and Lori is to have satisfied clients who have confidence referring their firm to their family and friends.

This theory must be working because business growth has been steady and growing. One of the major reasons the business will be successful is because each technician is a full partner.

Here is an example of "three mommies" wanting a career or business which was flexible and close to home and family. The partnership implements a need for entrepreneurship, family obligations and filling a service void in their hometown.

Specialties include bikini, underarm, lip, chin, eyebrows, full face, chest & stomach and full back.

There are packages available and there are some special discounts included for unique situations or custom packages. The owners confided that they are now gearing up for the busiest season.

Surprisingly enough, it is during the fall and winter months, pre-swimsuit weather, that the hair removal process is most prolific.

Because the whole procedure can take 6 to 8 sessions and because those sessions might be 4 to 12 weeks apart, the months after the summer season are the most appropriate for laser hair removal.

Visit their website at www.laser-hairassociates.com or call for an appointment 845-920-8490. Laser Hair Associates at 34-36 East Central Ave. in Pearl River accepts all major credit cards.

You owe it to your self esteem and well-being to give them a call today.
